

OPHTHALMOLOGY EXAMINATION REPORT

MEDICAL IN CONFIDENCE

Complete this page fully and in block capitals – Refer to instructions for completion.

Applicant's details:		(2) Medical certificate applied for: class 1 <input type="checkbox"/> class 2 <input type="checkbox"/>	
(3) Surname:		(4) Previous surname(s):	(12) Application: Initial <input type="checkbox"/> Revalidation/Renewal <input type="checkbox"/>
(5) Forename(s):		(6) Date of birth:	(7) Sex: Male <input type="checkbox"/> Female <input type="checkbox"/>
(13) Reference number:			
(301) Consent to release of medical information: I hereby authorise the release of all information contained in this report and any or all attachments to the AME and, where necessary, to the medical assessor of the licensing authority, recognising that these documents or electronically stored data, are to be used for completion of a medical assessment and will become and remain the property of the licensing authority, providing that I or my physician may have access to them according to national law. Medical confidentiality will be respected at all times.			
Date:	Signature of applicant:	Stamp & signature of AME:	
(302) Examination category: Initial <input type="checkbox"/> Revalidation <input type="checkbox"/> Renewal <input type="checkbox"/> Special referral <input type="checkbox"/>	(303) Ophthalmological history:		
Clinical examination		<i>Check each item</i>	Normal
(304) Eyes, external & eyelids			
(305) Eyes, Exterior (slit lamp, ophth.)			
(306) Eye position and movements			
(307) Visual fields (confrontation)			
(308) Pupillary reflexes			
(309) Fundi (Ophthalmoscopy)			
(310) Convergence		cm	
(311) Accommodation		D	
(312) <i>Ocular muscle balance</i> (in prisme dioptres)			
Distant at 5m/6m		Near at 30-50 cm	
Ortho		Ortho	
Eso		Eso	
Hyper		Hyper	
Cyclo		Cyclo	
Tropia Yes No		Phoria Yes No	
Fusional reserve testing Not performed		Normal Abnormal	
(313) <i>Colour perception</i>			
Pseudo-Isochromatic plates		Type: Ishihara (24 plates)	
No of plates:		No of errors:	
Advanced colour perception testing indicated Yes No		Method:	
Colour SAFE		Colour UNSAFE	
Visual acuity			
(314) <i>Distant vision at 5m/6m</i>	<i>Uncorrected</i>		<i>Spectacles Contact lenses</i>
Right eye		Corrected to	
Left eye		Corrected to	
Both eyes		Corrected to	

(315) <i>Intermediate vision at 1 m</i>	<i>Uncorrected</i>		<i>Spectacles</i>	<i>Contact lenses</i>
Right eye		Corrected to		
Left eye		Corrected to		
Both eyes		Corrected to		
(316) <i>Near vision at 30–50 cm</i>	<i>Uncorrected</i>		<i>Spectacles</i>	<i>Contact lenses</i>
Right eye		Corrected to		
Left eye		Corrected to		
Both eyes		Corrected to		
(317) <i>Refraction</i>	<i>Sph</i>	<i>Cylinder</i>	<i>Axis</i>	<i>Near (Add)</i>
Right eye				
Left eye				
Actual refraction examined Spectacles prescription based				
(318) <i>Spectacles</i>	Yes	No	Type:	
(319) <i>Contact lenses</i>	Yes	No	Type:	
(320) <i>Intra-ocular pressure</i>				Method
Right (mmHg):	Left (mmHg):	Normal	Abnormal	
(321) Ophthalmic remarks and recommendations:				
{Remarks}				
(322) Examiner's declaration:				
I hereby certify that I/my AME Group have personally examined the applicant named on this medical examination report and that this report with any attachment embodies my findings completely and correctly.				
(323) Place and date:	Ophth. Examiner's Name and Address: (Block Capitals)		AME or Specialist Stamp with No.:	
AME signature:				
	Telephone No.:			
	Telefax No.:			

INSTRUCTIONS FOR COMPLETION OF THE OPHTHALMOLOGY EXAMINATION REPORT FORM

Writing should be legible and in block capitals using a ball-point pen. Completion of this form by typing or printing is both acceptable. If more space is required to answer any question, a plain sheet of paper should be used, bearing the applicant's name, the name and signature of the AME or ophthalmology specialist performing the examination and the date of signing. The following numbered instructions apply to the numbered headings on the medical examination report form.

NOTICE – Failure to complete the medical examination report form in full, as required, or to write legibly may result in non-acceptance of the application in total and may lead to withdrawal of any medical certificate issued. The making of false or misleading statements or the withholding of relevant information by an examiner may result in criminal prosecution, denial of an application or withdrawal of any medical certificate granted.

GENERAL – The AME or Ophthalmology specialist performing the examination should verify the identity of the applicant. The applicant should then be requested to complete the sections 1, 2, 3, 4, 5, 6, 7, 12 and 13 on the form and then sign and date the consent to release of medical information (Section 301) with the examiner countersigning as witness.

302 EXAMINATION CATEGORY – Tick appropriate box.

Initial – Initial examination for either class 1 or 2; also initial examination for upgrading from class 2 to 1 (insert 'upgrading' in Section 303).

Renewal/Revalidation – Subsequent comprehensive ophthalmological examinations (due to refractive error).

Special referral – NON-ROUTINE examination for assessment of an ophthalmological symptom or finding.

303 OPHTHALMOLOGICAL HISTORY – Detail here any history of note or reasons for special referral.

304–309 INCLUSIVE: CLINICAL EXAMINATION These sections together cover the general clinical examination and each of the sections must be marked (with a tick) as normal or abnormal. Any abnormal findings or comments on findings should be entered in section 321.

310 CONVERGENCE – Enter near point of convergence in cm, as measured using RAF near point rule or equivalent. Tick whether normal or abnormal. Any abnormal findings or comments on findings should be entered in section 321.

311 ACCOMMODATION – Enter measurement recorded in dioptres using RAF near point rule or equivalent. Tick whether normal or abnormal. Any abnormal findings or comments on finding should be entered in section 321.

312 OCULAR MUSCLE BALANCE – Ocular muscle balance is tested at distant 5 or 6 m and near at 30–50 cm and results recorded. Presence of tropia or phoria must be entered accordingly and also whether fusional reserve testing was NOT performed and if performed whether normal or not.

313 COLOUR PERCEPTION – Enter type of pseudo-isochromatic plates (ishihara) as well as number of plates presented with number of errors made by examinee. 15 plates should normally be presented from the 24 plate series. State whether advanced colour perception testing is indicated and what methods used (which colour lantern or anomaloscopy) and finally whether judged to be colour safe or unsafe. Advanced colour perception testing is usually only required for initial assessment unless indicated by change in applicant's colour perception.

314–316 VISUAL ACUITY TESTING at 5/6 m, 1 m and 30–50 cm – Record actual visual acuity obtained in appropriate boxes. If correction not worn nor required, put line through corrected vision boxes. Distant visual acuity to be tested at either 5 m or 6 m with the appropriate chart for that distance.

317 REFRACTION – Record results of refraction. Indicate also whether for class 2 applicants, refraction details are based upon spectacle prescription.

318 SPECTACLES – Tick appropriate box signifying if spectacles are or are not worn by applicant. If used, state whether unifocal, bifocal, varifocal or look-over.

319 CONTACT LENSES – Tick appropriate box signifying if contact lenses are or are not worn. If worn, state type from the following list; hard, soft, gas-permeable, disposable.

320 INTRA-OCULAR PRESSURE – Enter intra-ocular pressure recorded for right and left eyes and indicate whether normal or not. Also indicate method used – applanation, air etc.

321 OPHTHALMOLOGICAL REMARKS AND RECOMMENDATIONS – Enter here all remarks, abnormal findings and assessment results. Also enter any limitations recommended. If there is any doubt about findings or recommendations, the examiner may contact the AMS for advice before finalising the report form.

322 OPHTHALMOLOGY EXAMINERS DETAILS – The Ophthalmology examiner must sign the declaration, complete his/her name and address in block capitals, contact details and lastly stamp the report with his/her designated stamp incorporating his/her AME or specialist number.

323 PLACE AND DATE – Enter the place (town or city) and the date of examination. The date of examination is the date of the clinical examination and not the date of finalisation of form. If the Ophthalmology examination report is finalised on a different date, enter date of finalisation on Section 321 as 'Report finalised on?'
